Dear Madam:

We appreciate your effort in trying to settle arrears owed by your scholarship scheme in which you paid 20%.

However, the 20% is far less than 75% required at the beginning of registration. In this light and to save us from financial embarrassment, we will advice were you to make either the full payment or at least 75% between now and November 10, 2006 or Administration will have to send your students home.

Thanks for your usual cooperation.
